Details:
Please note that the establishment which is designated as "Kindergarten Zornitsa" by the Municipality in Sliven (in Bulgaria) where I was sent to perform forced work in October 2026, does not even have a crosswalk of the street where I was forced to take the trash out into big trash containers. Gloves were not provided for the forced work of cleaning the yard around the establishment which is designated as "Kindergarten Zornitsa" by the Municipality in Sliven (in Bulgaria) and there were not breaks during the work (i.e. such were not allowed by the woman who called herself Yordanka there and the rest of the women who showed up occasionally from the building).
Presently, I am sent to perform forced labor at the open fruit and vegetables market, which is merely a street without sidewalks where cars enter, and different criminals are selling fruit and vegetables in the middle of the dirt and danger of cars for pedestrians.
Once more time, please note that according to the Bulgarian law I am not required to perform forced labor to receive my social security support payments. Once again the forced labor is assigned by the local social security office in Sliven on "Popska" St. 11 and the municipality in Sliven.
Please note that in principle reaching the social security office in Sliven is also very dangerous because it is located at the outskirts of the city where the sidewalks are damaged and there is not crosswalk to the building of the social security office.

Additional information

None at this point.

Thank you.
